

# Muhittin Dari

## Computer Engineer

Hello, my name is Muhittin and I'm a **React Native & React** developer with a **Bachelor's degree** in **Computer Science**. I've graduated from **Faculty of Engineering and Architecture** as a **top student (1st degree)**. With over **3 years of professional experience**, I have expertise in **React** development, including **React Native**, as well as server-side technologies such as **NestJS, Node.js, Express**, and databases like **SQL and NoSQL** databases such as **MongoDB, MySQL and MSSQL**. I've also worked with **ORM tools like Sequelize and Mongoose** to interact with databases. In addition to this, I have experience working with **AWS services including S3, Cognito, API Gateway, Lambda, and Amplify**. Additionally, I have experience working with **REST APIs** and consuming data from external services.

My skillset also includes **Next.js, TypeScript, Redux, Redux Toolkit, Axios, and Context API**. In my previous roles, I have leveraged these technologies to build scalable and performant web and mobile applications. I have experience working with front-end libraries such as **Material UI, Bootstrap, and Tailwind** etc. .

I'm always looking for new opportunities to apply my skills and knowledge to real-world problems, and I'm excited about the possibility of working with a team of like-minded individuals.

## Education

2023 - \*

**Electric Electronic Engineering  
(Masters Degree )**

Yozgat Bozok University

2017 - 2021

**Computer Engineer**

Yozgat Bozok University

## Expertise

- React Native
- React
- Next JS < 13
- Nest JS
- Node JS
- TypeScript

## Language

English

## Experience

2023 - \*

Hey Teknoloji

**React Native Developer**

I am working as a React Native Developer. I have developed a lot of React Native apps these are live right now.

2023 - \*

Tekspiyasa

**Fullstack Developer**

I'm working as a fullstack developer for our new project, which will serve the textile industry. I'm using NestJS on the backend side and NextJS, TailwindCSS and Material UI on the frontend side.

2022 - 2023

Simdatix

**React Developer (+Next JS)**

We undertook the CMS and web site of RoadJet (Brand of a tourism company in Germany) with React, NextJS and numerous libraries. We supported our work with Atlassian tools (JIRA, Confluence, Bitbucket). We preferred Agile Scrum for our working methodology. Whatever there is in the original documentation about React, I have become familiar with every subject here and I can use it easily.

2021 - 2022

Bilinova Bilişim

**React - React Native - NodeJS - MongoDB Developer**

I worked with React, NextJS and React Native on both the web and mobile side of the project.

2021 - 2021

Vizyon Design ( Yozgat Technopark)

**Web Developer**

PHP & Laravel - web application with 3D payment system with credit card.

2020 - 2021

Consintegra (Tubitak Marmara Research Centre)

### Intern

Using Qt Framework and C++, I created an automation of a robot that will serve under the roof of urban infrastructure imaging systems. Communication with the robot was established via serial port, video recordings and images were taken, manhole definitions and related project files were created, panoramic images were created from two 180+ degree camera images obtained as a result of the analysis, and a report could be created for the faulty parts of the channel by navigating the image after panoramic image creation.

2020 - 2020

Bitcraft Software ( Konya Teknokent )

### Intern

I have conducted short-term research on drones.

## RECENT PROJECTS THAT I DEVELOPED

### React Native

#### Vida

Vida is a maintenance operations management solution that provides the tools and information maintenance teams need to run operations efficiently and effectively.

[Google Play](#)[App Store](#)

#### Hascevher

As we Hascevher , on this way we set out with the slogan "Cook with Love", we are now taking our place in the Google Play Store and App Store . Get our application for product promotion videos, current catalogs and more. Harvest. Cook with Love...

[Google Play](#)[App Store](#)

#### Cotcast AI

Join us in keeping tabs on the cotton market. With our analysis backed by global data and up-to-date information, you can stay ahead of the trends in the cotton industry. Access detailed insights on cotton production,demand, stocks, and prices worldwide to make informed decisions. Embark on the right journey with us to compete in the cotton market, manage risks, and seize opportunities.

#### Akedaş

Kahramanmaraş Akedaş Electricity Distribution - Mobile application (under development)

## Education

2023 - \*

Yozgat Bozok University

### Electrical and Electronics Engineering (Masters)

I am continuing my master's degree

2017 - 2021

Yozgat Bozok University

### Computer Engineering (Bachelor)

I graduated as a top student from the Faculty of Engineering and Architecture.
